

INDEX

- Artificial intelligence (AI),
 - 83–84
 - technology, 86–88
- Asset tools, 96
- BABM, 24–27, 48–49, 103,
 - 109–110, 113–114
 - leadership, 110
- Big data, 85–86
- Brainstorming, 6
- Business
 - compliance, 53–54
 - culture, 67
 - infrastructure, 83
 - intelligence, 12, 97–98
 - management, 93
- Capturing systems. *See*
 - Customer tracking systems
- Categorization, 10
- Centralized silo, 68
- Classification, 10
- Cognitive computing, 86,
 - 87–88
- Collaboration, 29, 64–71
- Communication, 103
 - software, 96
- Communities, 68
- Content
 - collection, 8
 - collectors, 8
 - with context, 54, 61–64
 - leveling, 29
 - management, 4–5
 - reasoning, 43–44
 - reviewer, 48–49
 - storing, 8–9
 - validation, 57
- Context, 68
 - content with, 54, 61–64
- Cooperation, 68
- Coordination, 68
- Culture, 64–71
- Customer tracking systems,
 - 96
- Data, 11–20, 56
 - handling, 83–84
 - mining, 95
 - transformation model,
 - 54–55
- Deciphering, 108–109
- Decisions, 55
- Downsizing, 23–24
- Evolve–Solid program, 26,
 - 111–112

- Explicit knowledge, 15
- Facebook for business, 70
- Finding knowledge, 35–36
- Fitbit, 87–88
- Gap analysis, 84
- Garden of Wisdom, 37–38
- Hands-free business, 90
- (Il)logical knowledge
 - process, 11–20
 - case study, 80–82
 - content with context, 54, 61–64
 - culture and collaboration, 64–71
 - knowledge distribution rules, 72–75
 - knowledge transfer rules, 71
 - logical knowledge management process, 75–79
 - right data, 54
- Information, 11–20, 55
 - management, 4, 37
 - sharing, 69
 - stemming from theory, 104
 - technology, 96–97
- Interpretation, 106
- IT service management (ITSM), 24–25, 110
 - Consultant, 26, 32
 - evaluation, 26, 28, 31
- Know-how trade management, 93
- Knowledge, 11–20, 53–54, 54–56, 92
 - analytics
 - assets, 35–36, 57–58, 76, 107
 - bases, 40–41
 - distribution, 11
 - distribution rules, 72–75
 - repositories, 108–109
 - sharing, 72, 101–102
 - sources, 38–44
 - strategy, 6–11
 - team, 105
 - trail, 24, 36–38
 - transfer rules, 71
 - user agreements, 5–6
- Knowledge content, 59–60
 - segmentation, 45–49
- Knowledge environment, 71, 74, 85–86
 - team, 98–100
- Knowledge management, 1–2, 4, 18–20, 37, 53–54, 56–58, 83, 87–88, 97–98, 102–106, 112
 - case study, 24–27
 - framework, 63
 - implementation plan, 20–24
 - planning, 90–91
 - preplanning and planning stages, 1–2
 - volume in, 58–59

- Knowledge Management
 - Office (KMO), 26–27, 111–112
 - skills, 9–10
 - Recycling knowledge, 35–36
- Learning management systems (LMS), 96, 105
- Logical knowledge, 11–20, 28–31, 31–34, 60, 102, 106
 - environment benefits, 50–52
 - management, 56, 75–79
 - phases, 35–36
- Maturity, 92
- Measurement, 107–108
- Mitigation plan, 113
- Modern technology, 85, 88–89
- Occupational silo, 74
- Organizational learning, 102–106
- Over-engineered infrastructure, 91
- Planning, 63
- Problem resolution, 73
- Producing knowledge, 35–36
- Proprietary outlets, 42
- Public outlets, 41–42
- Quality assurance, 95
- Reasoning
 - competencies, 10
 - practices, 42–43
- Segmentation, 16
- Sharing knowledge, 35–36
- Sources, 16
- Strategy creation, 6
- Success, 104
 - measuring, 107–109
- Tacit knowledge, 15
- Tagging, 62–63
- Technical maturity, 92
- Technology, 83, 90–92
 - education, 92
 - for knowledge, 98
 - knowledge team, 98
 - systems, 4
- Textbook education, 92
- Time management, 89–90
- Tools for knowledge and organizational learning
 - case study, 109–114
 - high-level knowledge landscape, 84
 - knowledge management and organizational learning, 102–106
 - logical process phases, 84
 - measuring success, 107–109
- Under-engineered infrastructure, 91
- Understanding, 12

Validation, 22, 85–86, 98
Valuable knowledge, 64
Value, 28

Verification, 85–86
Wisdom, 54–58
